

Register Your Pup's Microchip

Go to: www.tasso.net

This will be a FIRST TIME REGISTRATION of the Microchip as Puppy Rescue in Spain has not registered the puppy's microchip at all.

The main page does not have the option to translate to English. Click on **Registrieren Sie Ihr Tier online!** – located in the right-hand column:

Click on **REGISTRIEREN SIE IHR HAUSTIER JETZT KOSTENLOS!** or **REGISTER YOUR PET NOW FOR FREE!** If you translate the page.

"Man kann ein Tier nicht vor dem Weglaufen schützen. Aber davor, nicht mehr zurückzukommen." (Philip McCreight, Leiter TASSO-Zentrale)

REGISTRIEREN SIE IHR HAUSTIER JETZT KOSTENLOS!

Look at your pet's passport. There is a barcode on the front cover OR on the Info Page (a few pages in). If you don't see it, look at the folded pages near the back. The number is 15-digits long, located under the barcode – this is your pet's microchip number.

Enter the number in the space provided and continue.

REMEMBER:

You **MUST** use a physical address. The goal of the microchip registration is to ensure your pet can be returned to you if s/he gets lost. Using a post office box will not work for this.

Accurate and reliable **PHONE NUMBERS** are extremely important. An accurate and reliable email is, as well. **USE CONTACT INFORMATION FOR ACCOUNTS AND PHONES YOU ALWAYS CHECK.**

Breeds are not necessarily in alphabetical order. Choosing **MIXED BREED** is acceptable for most puppies, at least until they are fully grown and more recognizable as being more "this" or "that".
